## OUR MISSION

We are focused on giving you the potential to generate financial returns on both rising and falling prices across FX, stocks, commodities, shares and cryptocurrencies.

## VISION STATEMENT

Our vision is to assist you in making investments for the future. In order for our clients to achieve their financial objectives, we work hard to offer clients a reliable, trustworthy, and effective services.

# OUR JOURNEY

## WE HAVE COME THIS FAR

Bellaray Limited focus on the usability of crypto to invest in real estate, stock and commodities and arts. This makes it easy for users who wants to get started with investments to get in easily.

### Bellaray Investment limited Launches for Investors

2015

Our founder started Bellaray limited because they saw that the access to institutional quality investments was broken, and knew they could create a better way for all of us. Coming from complementary background, Our CEO had deep investment, risk and compliance management background and had built and scaled large companies and also wore the "Investor" hat

### Legal finance & real estate asset classes launches

2016

Given our expertise, we started with opening litigation finance to investors who were looking for a new way to invest and reduce their risk and exposure to the entire trading industry.

### Series A: More Money, More Growth

2017

Bellaray Investment limited raised a record of over \$70million in Series A (trading) financing

### Explosive Growth and Value in Record Time

2018

Bellaray Investment limited was like a lightning bolt to the investor landscape, surpassing over \$100M invested on the platform.

### A bold new Bellaray limited company

2019

As we expand our offerings, our commitment to being investor-first continues to grow. It was time for our brand to reflect the breadth of our plans for both the present and future

### The Future and Beyond

2021

Bellaray Investment limited has made first move towards listing and sales of NFTs within the platform thus joining the race for metaverse and web 3.
